#### Product Description

Desert Survivor Bush Tea is 100% Scented Emu Bush *Eremophila alternifolia*. This Tea represents the Scented Emu Bush in its simplest form, leaves and flowers dried on the stem and then lovingly taken off and placed into a tin. There is no caffeine in this Tea or infusion as some like to call it. The medicinal properties of this plant are significant including: analgesic, antimicrobial, anti-inflammatory and anti-spasmodic.

The taste is unique because it is a plant that thrives in the remote and harsh conditions of much of Central Australia, so the taste may resemble the Australian Bush – The heart and soul of this precious Country. Grown and produced on an Organic Farm.

#### Uses

- Anti-inflammatory / anti-bacterial  
The Scented Emu Bush is very effective in presenting these qualities to the body should your body require them.
- Sleep  
The Desert Survivor Bush Tea has no caffeine instead it maintains an inner equilibrium of the body settling the body down gently. Sleep may come to those that find it difficult as the Scented Emu Bush slowly calms the body down allowing you to have a much needed rest.
- Inner Equilibrium  
The Scented Emu Bush is the “number one” medicinal plant right through the Central Desert Regions of Australia; it will be there to care for you provide assistance and make no demands at all. This plant potentially is the heart and soul of Australia it has existed on this Earth for a very long time. It has withstood extremely hostile conditions and has survived to come to you and to serve you, thus it is unconditional love in the form of a plant. Fall in love with it and then the Country from whence it came.

#### Directions for Use:

- The recommended dose is just 7 to 10 or a “pinch” leaves placed in a cup with hot water, let it steep for 5 to 15 minutes and then consume.
- Many uses: Many people prefer to reuse the leaves throughout the day.
